SUMMARY

Senior Supply Chain Analyst with 4+ years in consulting, focused on network optimization, operational excellence, and data-driven analysis.

Currently pursuing a Master's in Information Systems at FAU, seeking a working student position to contribute to data-driven business solutions and support digital transformation initiatives

EDUCATION

MSc - International Information Systems **Oct 2025 - Present**
Friedrich-Alexander-Universität Erlangen-Nürnberg, FAU
GPA: 1.8

B.A - Industrial Management **Sep 2017 - Oct 2021**
Vietnam National University - University of Technology.
GPA: 1.9

PROFESSIONAL EXPERIENCE

Student Assistant – Digital Supply Chain Lab, HWR Berlin **Feb 2026 - Present**

- Support the development of supply chain simulation logic using Python, enabling the modeling of disruption scenarios and their impact on network resilience.
- Build an interactive TypeScript dashboard integrated with Supabase that allows users to upload data and run simulations in real time.
- Optimize data retrieval and metric calculation through SQL queries and establish robust API connections between platform modules.

Senior Supply Chain Analyst - CEL Consulting **Jan 2024 - Oct 2025**
Projects:

Cost-to-Serve Benchmarking for 5 Asian OpCos of Netherlands Dairy Company

- Designed standardized data validation frameworks to enable analytics across multiple operating companies
- Developed interactive decision-support dashboards (using Python Streamlit) that enabled consultants to identify patterns, anomalies, and optimization opportunities in logistics operations
- Produced benchmark reports comparing internal OpCos and external competitors, supporting data-driven strategy discussions and prioritization of improvement initiatives

Network Optimization for Australia's Largest Plumbing Supplies Company

- Led a data quality improvement initiative by identifying misalignments between ERP data and operational processes
- Developed scenario-based decision models to simulate operational and cost impacts, supporting consultants in evaluating optimization and automation opportunities in network design
- Supported PMO governance: managed internal trackers, timelines, and cross-team coordination
- Facilitated client workshops and on-site planning discussions in Australia

Project Deliverables:

- Recommended cross-docking in Sydney → saved 1.4M AUD
- Product re-ranging between DCs → cut cost-to-serve by 10.7M AUD; time-to-serve drop by 5%
- Centralized network proposal → reduced warehouses from 8 to 5, saving 9.7M AUD

Supply Chain Analyst - CEL Consulting

Apr 2022 - Dec 2023

Key Analyst in Distribution Network Optimization for dairy companies in Australia & Europe, main activities:

- Analyzed Sales, Transport, and Inventory KPIs (e.g., Service Level, Days of Inventory, Truck Utilization) for dairy networks across Australia and Europe
- Built financial models to simulate cost impact of distribution scenarios
- Facilitated internal team coordination and deliverable tracking

Project Deliverables:

- Decentralized network → increased inventory resilience from 7.4 to 13.9 days
- Optimized milk collection → saved 0.9M AUD
- Portfolio review → identified 56 unprofitable SKUs, saving 3.7M EUR

Supply Chain Consulting Intern - CEL Consulting

Oct 2021 - Mar 2022

- Supported data cleaning, SKU analysis, and cost modeling for Thai dairy network
- Identified inefficiencies in product portfolio and logistics strategy
- Built interactive analytics tools to automate KPI monitoring and support faster, insight-driven decision-making in supply chain consulting engagements

Key Achievements:

- Shipment consolidation & trip negotiation → saved 2.6M THB/year
- Eliminated unprofitable class C SKUs → reduced annual loss by 6M THB

SAP SD Module Consultant Intern - Citek Technology

Aug 2020 - Dec 2020

Project: SAP ERP Implementation for an agricultural corporation

Responsibility:

- Tested the business processes configured in SAP S/4 HANA
- Wrote test cases for User Acceptance Testing in the Deploy stage
- Wrote user manual and supported training the end users

SKILLS

R Programming	Database with SQL	Problem-Solving
Python	Data Management	People Management
Predictive Modeling	Data Visualization & Dashboarding	Stakeholder Management
		Operation Process Improvement

ADDITIONAL INFORMATION

Languages: English C1, German A2

Certifications:

- DataCamp Data Analyst in R
- edx MIT MicroMaster on Supply Chain Fundamentals
- edx Harvard Data Science
